

KUMFA was founded in 2009 by unwed mothers in order to raise awareness about the difficulties faced by unwed mothers and their families and fight for their rights.

All mothers and their children have the right to be welcomed and supported as members of their society.

We have chosen to keep and raise our children.
KUMFA is working toward a society where unwed mothers can raise their children without discrimination!

Please support unwed mothers and their children!

The right to have our decision
respected
The right to pursue happiness
